Hej Adrian!

All I can say is wow....

I showed your work to my daughter who is starting her third year in the media program. Her speciality is editing images. She is very good at it and she says she can do it but not in that precision you did. She also is amazed.

Thank you very much for taking the time editing the picture. Now I wonder, what can we do for you? Please tell us if you think of something. One suggestion is that we write on our startpage that when we need an edited picture, we consult Adrian COSTEA at....

I look forward to hear from you.

Have a nice weekend

Hälsningar
